

Optional Life Insurance

When a Spouse Becomes a Member

Coverage Ends

It has always been a rule that a KPERS member **can't** be covered by optional life insurance as a spouse. So, once a spouse becomes a member, his or her spouse coverage ends. This "termination" appears on the OGLI premium report change list section in the employer web portal (EWP).

We Don't Reach Out

In the past, cancelling a new member's spouse coverage was a manual process. KPERS used to reach out to you about it individually. Now it's a system change that happens automatically so we don't miss them.

Please Tell Your Employee

As with all coverage cancellations, you'll need to contact your employees to tell them about it. This change is especially important to communicate because it's a cancellation not initiated by employees. The premium report will automatically adjust for the cancellation.
